9,395

breaches have been recorded by the Identity Theft Resource Center.

The average cost of a Malware attack in 2017

The average number of days taken to recover from the attack

WHAT CAN I DO?

It's important to be proactive instead of reactive when it comes to backup and disaster recovery.

CLOUD BACKUP

BACKUP TO SIERRA DATA CENTER

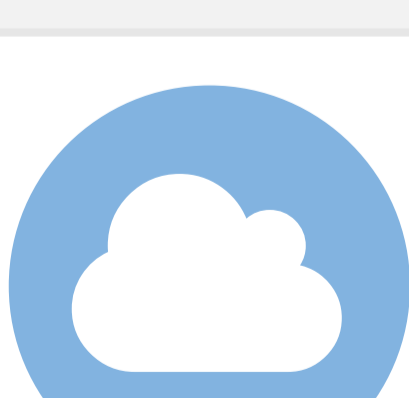

HARDWARE REPAIRS

SOFTWARE SOLUTIONS

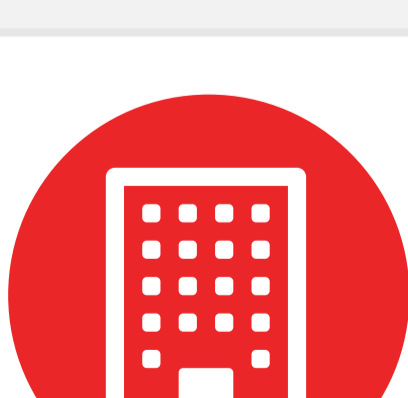

HYBRID SOLUTIONS

However, hardware repair and software solutions are temporary fixes for the issues you have. The only true way to make sure your data is safe, and stays safe, is to have backups.

Backup to the Cloud

Backup to Sierra Data Centers

Hybrid Backup Solutions

We do IT differently.

It's not a matter of if a disaster will occur, it's a matter of when it will occur.
