# SERVER MANAGEMENT
From Sierra Experts
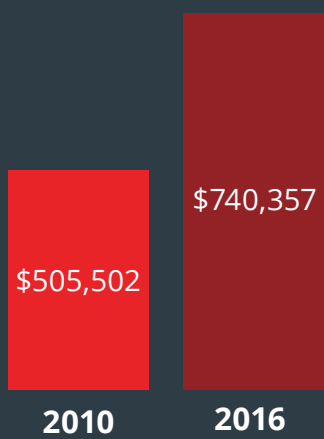

Did you know?
The average cost of a **minute** of unplanned IT downtime is now **$8,851.**

Server Management

Other 25% 22% 22%

The top three reasons for downtime can be avoided with proper management. UPS system failure accounts for 25% of downtime, cybercrime accounts for 22%, and accidents/human errors account for 22%.

Growing Expense

$505,502
2010

$740,357
2016

The cost of downtime is only increasing. The average cost of IT downtime per year has risen from $505,502 in 2010 to $740,357 in 2016.

You can avoid becoming one of these statistics by switching to remote server managment with Sierra.
